"FIT & FORGET" Operation

Your justTRAC asset tracking unit was developed and set-up to provide an expected 3 years "FIT & FORGET" operation. No battery charging needed.

The unit will transmit a daily "keep alive" message and you can check the unit using the justTRAC software.

Should the asset be stolen, you must immediately alert the justTRAC support centre who will set the unit to transmit GPS location information regularly.

Start-up

Your tracker unit is 100% prepared and ready for operation.

1. Battery is charged.
2. GSM SIM is installed and set-up for operation.
3. Unit is sealed and ready for installation.

DO NOT OPEN:

The unit has been weather protected sealed ready for installation and should not be opened.

Device Tracking Service

To track your device using a PC, mobile or any user device just go to www.justtrac.co.za under registration and sign-up for your monthly service subscription. Once we received your registration we will set-up your user account and reply with your login details which will include your email and a default password. To view your device, go to "map" tab and select your group and select all the devices you wish to monitor.

INSTALLATION GUIDE

Correct installation is critical to ensure your unit remains connected with the GSM network and can transmit reliable GPS location messages. The following installation notes are provided for guidance.

HIDDEN

The primary objective is to recover your valuable asset when it is stolen. Take care to install the unit at a location which will not be readily be identified by thieves.

DO NOT ENCLOSE IN STEEL.

The unit must remain connected to the GSM network and can not transit the GPS signal if the unit is fully enclosed in a steel compartment.

WEATHER & WATER PROTECTION

The jt20 is only WEATHER RESISTANT and not weather proof. Be careful to protect the unit against excessive water exposure. The jt12 unit is IP67 rating with double waterproof protection.

IMPORTANT NOTE: Use the tracking software to check that the installation is correct and that the unit is reporting GPS location correctly.

GPS LOCATION Updates is sent once a day.

ASSET RECOVERY

Your monthly justTRAC subscription includes an asset recovery services should your unit be stolen. justTRAC offers this service in partnership with Afrisist. www.afrisist.com

Your Afrisist contact details will be provided to you with registration of your justTRAC monthly subscriber service.

See www.justtrac.co.za for more information or contact us on service@justtrac.co.za or on Facebook.
