

Welcome to the justTRAC tracking solution group, we are pleased to be of service to you and look forward to be in contact. Your tracker was preconfigured and set-up, it is ready for operation, you only need to install the unit in your vehicle and start tracking.

**jt200 Asset Tracker Unit**

**Installation**

- Find a Secure location on your vehicle to install device.
- Connect *Red Wire* to a permanently *Positive* connection on the vehicle (between 9 and 32 Volt)
- Connect *Black Wire* to vehicle *Ground* (it can be connected to a chassis bolt)
- Connect *White Wire* to *ignition source* of vehicle (Must be positive ignition source between 9 and 32 Volt)
- All Wires must have the same power source and cannot be connected to 2 different power sources.

**Device Tracking Service**

To track your device using a PC, mobile or any user device just go to [www.justtrac.co.za](http://www.justtrac.co.za) under registration and sign-up for a service bundle.

Once we received your registration we will set-up a user account and reply with your login details which will include your email and a default password. To

view your device, go to “map” tab and select the device you wish to monitor.
